**Edgar Haass.**

The hearts of the people of Hondo experienced a pang of pain early last Saturday morning when the news rapidly spread over the town that Edgar Haass had passed through the portal that leads to the life beyond the grave. While our people knew that he had been grievously injured Friday afternoon by the collapse of a scaffold on which he was standing while engaged, with others, in razing a damaged bridge over Verde creek, they all hoped, and firmly believed, his strong vitality and robust physique would enable him to successfully combat his injuries and that he would long be spared, the joy and pride of his parents and the friend and companion of a myriad of life-long companions.

Deceased was born in Hondo November 12, 1899, consequently he was standing on the very threshold of vigorous young manhood, he being 20 years, 7 months and 14 days of age at the time of his passing. He was truly a Hondo boy and all our people grieve that his bright, cheerful face has been removed from their midst for all time.

Only his intimate associates knew that he was planning to shortly embark in business and it is probable that in his passing Hondo is a greater loser than will ever be realized. Figuring that the prohibitive prices of all building material made home building by even the moderately prosperous extremely burdensome, he was gradually preparing to go into the concrete business, and there is but little doubt that had fate held a kinder future in store for him that he would at no distant day have become one of the honored business men of his native town.

The funeral occurred at 4:30 Sunday afternoon and was attended by one of the greatest, if not the greatest, concourses of people ever assembled in a Hondo cemetery on a like occasion. But few if any family in the county but a had representative present, while hundreds of friends and sympathizers of the family were here from surrounding counties to pay a last sad tribute of respect to the departed. Rev. A. G. Koeppe, pastor of the Quibi Lutheran Church, feelingly conducted the services, the young man being a member of that church.

Six young men of Hondo, all life-long friends and chums of Edgar, to-wit: Andrew Bless, Roland Gaines, George Bendele, Jr., George Heiligman, E. Bodeman and John Carter, acted as pall-bearers, and many a silent tear trickled from eyes unused to tears as the casket was lowered to its resting place in the breast of Mother Earth.

To the stricken parents, Judge and Mrs. H. E. Haass, who by this appalling accident were robbed of their only son, the sympathy of all people go out in unmeasured terms. May a Heavenly Father comfort them in their distress. Besides his parents deceased is survived by two sisters, Mrs. Roy Carter and Miss Irene Haass, both of Hondo.

Besides by his immediate relatives the image of this handsome, cheery-faced young man will long be held in loving remembrance by hundreds of people of Medina county.

The Medina Oil Development Company is setting casing at a depth of one hundred feet.

### A Shock Followed by a Surprise.

On June 26th the people of this community (Sturm Hill) were greatly shocked when they heard of the marriage of Mr. John Balzen and Mrs. Elizabeth Taber of Sterling, Ill., which took place at 6:30 o'clock Saturday evening at the home of the groom, Rev. Koeppe officiating. Only the children of the groom and their families and a few intimate friends witnessed the ceremony.

After the ceremony a sumptuous supper was served which consisted of barbecued goat, bread, pickles and coffee, all kinds of cake and three different kinds of ice-cream and plenty of iced watermelon. Kodak pictures were taken and everybody enjoyed every minute of the occasion.

On June the 30th the people of the community returned the shock with a surprise given by a large circle of friends and relatives of the groom, who came from all directions, Rio, Medina, Hondo, Peach Tree, Elstone and all intermediate points being well represented. To mention the names of those present would be to lengthy.

The party started by singing songs, one being especially for the bride where it said:

"It was from the Katy Flier Depot,  
That I got my Lizzie home."

Later on games were played and refreshments served which consisted of coffee and all kinds of cake.

When the hour hand reached its zenith all departed for their homes wishing Mr. and Mrs. Balzen a long and happy journey through life.

## Rosy Cheeks & Satin Skin

Because of her rosy cheeks and satin skin a woman attracts the admiration of all men. When the

young woman peers in her glass, she may see pimples and blotches and she immediately goes

to the drug store for paint, powders and beauty creams, when she should go there for a blood medicine and stomach alterative known as "Golden Medical Discovery." This vegetable tonic and blood alterative clears the skin, beautifies it, increases the blood supply and the circulation, while pimples, boils and eruptions vanish quickly. Ask your nearest druggist for Dr. Pierce's Golden Medical Discovery in tablet or liquid form or send 10c. for trial package of tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

## Chamberlain's Colic and Diarrhoea Remedy.

This medicine always wins the good opinion if not the praise of those who use it. Try it when you have need of such a remedy.

## "Essays on Wheat."

Wheat growing is a branch of farming well adapted to all of the black land belt of Texas, except the coastal plain. The grain flourishes on most of our clay soils and especially those of lime-stone formation. In the early days of farming in this immediate section wheat growing formed no small part of the farming operations. Then came an era of low-priced flour, following the development of the vast wheat fields of the Northwest, and to many farmers of the younger generation wheat-growing is almost a lost art. But the high cost of living in recent years, together with the ravages of the cotton boll weevil, has forced greater attention to diversification and more interest is being awakened in this valuable crop.

To those who are interested in either a practical or an academic study of this grain, "Essays on Wheat," written by A. H. Reginald Buller, and published by The Macmillan Company, New York, N. Y., will prove of timely interest.

"History," says J. Henri Fabre, "celebrates the battlefields whereon we meet our death, but scorns to speak of the plowed fields whereby we thrive; it knows the names of the king's bastards, but cannot tell us the origin of wheat. That is the way of human folly."

In his book, Mr. Buller atones in some measure for the failure of our historians. He tells the story of Marquis Wheat, of which approximately 250,000,000 bushels were raised in 1917 and 300,000,000 bushels in 1918. It is an interesting and an unusual story—as may be seen from the fact that all the Marquis Wheat in existence came from a single grain planted in an experimental plot in 1903.

Among the other topics which the author considers are the Early History of Wheat Growing in Manatoba, Wheat in Western Canada, the Origin of Red Bobs and Kirchner and the Wild Wheat of Palestine.

But enough. Get the book itself—and read it. I can be had of the Publishers for \$2.50. F. D.

## Twenty-five Cents is the Price of Peace.

The terrible itching and smarting, incident to certain skin diseases, is almost instantly allayed by applying Chamberlain's Salve. Price 25 cents.

The Democratic National convention at San Francisco began business Monday, June 28, with a tremendous demonstration for President Wilson, when a great American flag was rolled up, unveiling a large painting of the president. The convention went into a delirium of cheering, applause and demonstration which continued for half an hour despite all attempts to resume business.

## Help For Those Who Have Stomach Trouble.

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctors fees, I purchased my wife one box of Chamberlain's Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—Samuel Boyer, Folsom, Iowa.

The San Francisco Convention will find it difficult to put a solution for the three L's, League, Liquor and Labor, in a pleasing form in the democratic platform.

## Summer Complaint Quickly Relieved.

"About two years ago when suffering from a severe attack of summer complaint, I took Chamberlain's Colic and Diarrhoea Remedy and it relieved me almost instantly," writes Mrs. Henry Jewett, Clark Mills, N. Y. This is an excellent remedy for colic and diarrhoea and should be kept at hand by every family.

The former Lone Star Brewery plant in San Antonio, which produces ice and near-beer now, will be converted into a cotton factory. The present machinery will be sold to Mexico and South America and new machinery will be installed. At the head of the enterprise are the present manager, Henning Bruhn, and Aug. Busch who owns a controlling interest of the stock company.

Mrs. Robbie Harper and boys returned from San Antonio and Hondo recently. They were visiting relatives for two weeks. Mr. Harper met them in Hondo.—Utopia Cor.

Mr. and Mrs. Woodrum of San Antonio came out Saturday to visit Mr. and Mrs. Oscar Shane.

## Summer Complaint in Children.

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."

Putting it up to them,—"Bredren," said a colored minister down on a plantation, "I've got a five-dollar sermon an' a two-dollar sermon an' a one dollar sermon; an' I want this here indelicate audience to take up a collection as to which one of dem dey can afford to hear."—The Forester.

# DOUGHNUTS and CRULLERS

### From the NEW ROYAL COOK BOOK

**DOUGHNUTS** made the doughboy happy during the war and no wonder. There is nothing more wholesome and delightful than doughnuts or crullers rightly made. Their rich, golden color and appetizing aroma will create an appetite quicker than anything else in the world.

Here are the famous doughnut and cruller recipes from the New Royal Cook Book.

**Doughnuts**  
3 tablespoons shortening  
1 cup sugar  
1 egg  
1 cup milk  
1 teaspoon nutmeg  
1 teaspoon salt  
3 cups flour  
4 teaspoons Royal Baking Powder

Cream shortening; add sugar and well-beaten egg; stir in milk; add nutmeg, salt, flour and baking powder which have been sifted together and enough additional flour to make dough stiff enough to roll. Roll out on floured board to about 1/4 inch thick; cut out. Fry in deep fat hot enough to brown a piece of bread in 30 seconds. Drain on unglazed paper and sprinkle with powdered sugar.

**Afternoon Tea Doughnuts**  
3 eggs  
3 tablespoons sugar  
1/2 teaspoon salt  
1/2 teaspoon grated nutmeg

## ROYAL BAKING POWDER

### Absolutely Pure

3 tablespoons shortening  
6 tablespoons milk  
2 cups flour  
3 teaspoons Royal Baking Powder

Beat eggs until very light; add sugar, salt, nutmeg and melted shortening; add milk, and flour and baking powder which have been sifted together; mix well. Drop by teaspoons into deep hot fat and fry until brown. Drain well on unglazed paper and sprinkle lightly with powdered sugar.

**Crullers**  
4 tablespoons shortening  
1 cup sugar  
2 eggs  
3 cups flour  
1 teaspoon cinnamon  
1/2 teaspoon salt  
3 teaspoons Royal Baking Powder  
1/2 cup milk

Cream shortening; add sugar gradually and beaten eggs; sift together flour, cinnamon, salt and baking powder; add one-half and mix well; add milk and remainder of dry ingredients to make soft dough. Roll out on floured board to about 1/4 inch thick and cut into strips about 4 inches long and 1/4 inch wide; roll in hands and twist each strip and bring ends together. Fry in deep hot fat. Drain and roll in powdered sugar.

#### War on Rats.

Austin, Texas, June 23. Was there ever or will there ever be a better time to wage a war of extermination against the plague spreader, the rat? And if we could be assured there would never be another case of this awful disease developed within the borders of Texas the extermination of rats would still be well worth while, because of the vast amount of grain and food they eat and destroy including poultry, besides the damage they do to buildings.

In La Salle County alone, reports that rats and mice are to be found by the millions and are doing great damage to growing crops, cutting down corn, cane, etc., and making a clean sweep of melons and cantaloupes.

The State Board of Health is urging that all join hands in a statewide crusade and that not a stone be left unturned to completely eliminate rats from Texas and thus remove the possibility of the spread of Bubonic Plague in the future.

In view of the fact that the press reports a case of plague in the City of Mexico, which if true, is evidence of the fact that our inland communities are not safe as this case was evidently carried from Vera Cruz. Then why not clean up the communities and quit feeding and raising rats, thereby applying preventive measures. Other precautions may be taken such as rat-proofing buildings, which should be done at the time the building is erected, also dogs, cats and traps may be employed.

According to reports reaching the State Board of Health about twenty Texas towns have already begun a campaign against rats and it is hoped that others will lose no time in following the directions of the State Board of Health.

#### Procedure for Campaign Against the Rats.

Form a working organization, using all agencies including Boy Scouts. Pass an ordinance requiring all new buildings to be rat proof at the time of construction.

Plague is primarily a disease of the rat and secondarily of man. The disease is generally transmitted from rat to rat and from rat to man through the agencies of the flea. Rats are great travellers and have carried plagues to all parts of the globe. An infected rat secreted in a cargo in the hold of a ship or in a box car may take the disease into the town at its point of destination. The prevention of plague naturally resolves itself into a war upon these rodents. The measures for repression and destruction of rats are as follows:

1. Rat Proof Buildings—This is a measure of vast importance in the fight against rats. Rats admitted to a building intrench themselves and are most difficult to dislodge. The lower parts of buildings should be either built out of concrete or reinforced with metal to keep the rats from gnawing through. Basement windows should be screened and doors provided with springs to keep them closed. All water and drain pipes should be surrounded with concrete. Rats find wooden sidewalks a retreat, and these

sidewalks should be replaced with concrete.

2. Keeping Food From Rats—Well fed rats mature quickly, breed often and have large litters. Scarcity of food helps to suppress them. All garbage should be placed in well covered garbage cans and the garbage frequently removed and burned. Products in a warehouse may be protected with wire cages.

3. Natural Enemies—Trained dogs and cats may be used to advantage in a rat eradication campaign.

4. Traps—One of the best traps on the market is the old fashioned wire cage trap. Traps should always be washed after each catch and handled with tongs, or gloves. The best baits are cheese, bacon, grain and bread. Other traps, such as the Guillotine Spring Trap, the cage trap, the barrel and pit trap are sometimes used.

5. Poisons—Perhaps the cheapest and most effective poison is barium carbonate. This may be made into a dough with four parts of meal or flour to one part of barium carbonate. Other poisons are strychnine, arsenic, and phosphorus.

6. Shooting—Rats may be shot as they come out to forage about sundown.

7. Fumigation—Rats may be killed with certainty in any enclosed structure by the use of sulphur dioxide, carbon bisulphid, hydrocyanic acid or gas or carbon monoxide. Sulphur dioxide is particularly useful to destroy rats on board of ships, in cellars, on railway cars, stables, sewers and other places where they abound and which are not injured by the corrosive sulphur fumes. No less than three pounds of sulphur should be burned for each 1,000 cubic feet of space, and the exposure should not be less than five hours. This sulphur must be burned in the presence of moisture in order to render fumigation effective.

"How I Cleared the Mill of Rats," By J. Tucker, R. I.

"As night watchman I believe I have seen more rats than any man. Dogs wouldn't dare go near them. Got \$1 pkg. of RAT-SNAP, inside of 6 weeks cleared them all out, killed them by the score every night. Guess the rest were scared away. I'll never be without RAT-SNAP." Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by W. H. Windrow and Holloway Bros.

## In Memory of a Dear Friend, Edgar Haass

His hopes were high, his heart was young.  
The notes of joy were on his tongue.  
His foot was firm upon the road,  
His courage was great beneath the load,  
When he was called away by God.  
But though he went away so soon  
'Ere yet the day had reached the noon,  
His hand had planted many a flower,  
His heart had gladdened many an hour  
When he was called away by God.  
His heart was pure and free from guile,  
Bright as the sunshine was his smile;  
And friendship fair failed not to come  
To grace the circle of his home,  
For these he thanked his God.

God bless his parents and his home,  
God grant their feet may never roam;  
God grant some day they all may come  
To meet their son in their home,  
And meet their son's God.

A FRIEND, I. L.

EARLE WILLIAMS

Earle Williams, Vitagraph star, has devoted most of his time to that company's West Coast studio in recent years, but came east to make "The Fortune Hunter" and "Captain Swift," two plays that had a long run on Broadway a few years ago. They were made famous by the Barrymores. Mr. Williams is now at work making features at Vitagraph's West Coast studio.

JOE RYAN

Joe Ryan felt that he just had to be a villain to keep up the natural fitness of things. He was born at the foot of Devil's Tower, in Crook county, Wyo., and he just naturally had to play he was a bad man. That he succeeded is evidenced by the hisses he receives in nearly every city and town in this broad land. But away from Vitagraph's thrilling serials, he is one of the most quiet and likable men in the motion picture world. And to prove it he is being co-starred with Jean Paige in a serial.

## SOME FACTS AND FANCIES ABOUT THE PHILIPPINES

There Has Been Much Misrepresentation in America About People and Conditions.

By MAXIMO M. KALAW,  
Secretary of the Philippine Mission.

A certain lady at the St. Louis Exposition saw at a ballroom a brown complexioned man in faultless evening dress and accosted him with the inquiry, "I suppose you are Japanese, sir?" The man addressed replied, "No, madam." "Then you must be Chinese," she said.

Maximo M. Kalaw. "No, I am not. I am a Filipino," he replied. "How's that?" asked the lady. "I thought they were all savages living in the woods."

"Well, I'll tell you how I came here," he said. "A month before I left the Philippines I was living in the woods, but the American Governor decided to catch as many wild men as possible, train them and send them over here. So here I am, just as you see." And the St. Louis lady actually believed him.

That is what you would call fancies about the Philippines. The fact is, however, that the 11,000,000 Filipinos and their ancestors have been civilized and Christians for 300 years; that the non-Christian population, according to the census of 1918, is only 500,000, and even these are not all uncivilized. Another fancy is that not until the coming of the Americans were school buildings seen in the Islands, roads built, or substantial houses erected. Do you know that for hundreds of years the Filipinos have had colleges and schools and that the University of Santo Tomas is only twenty-five years older than Harvard? That as early as 1866, out of a population of 4,000,000 people, there were 841 schools for boys and 833 for girls? That in 1892, eight years before the coming of the Americans, there were 2,137 schools?

"To grant self-government to Luzon under Aguinaldo would be like granting self-government to an Apache reservation under some local chief." Thus spoke a former President of the United States during the Filipino-American war. Exaggeration could be an excuse at a time when the dignity of the American people demanded the extinction of Filipino opposition, but do you know that the Philippine Republic, before the American occupation of the Islands, had the approval of prominent Americans who were on the spot—like John Barrett, Director of the Pan-American Union, who compared it favorably with the Japanese government? That Admiral Dewey considered the Filipinos better fitted for self-government than the Cubans? That they had drafted a constitution at Malolos which elicited the approval of distinguished Republicans like the late Senator George F. Hoar? That before the coming of the Americans they had produced national heroes like the martyred Jose Rizal, pronounced by a Republican congressman, Representative Cooper, as the noblest victim that has ever fallen into the clutches of tyranny?

And do you know that the Filipinos have not had for hundreds of years any caste system, blood distinction or royal families, and that, unlike their oriental sisters, they are the only Christian people in the orient? People have pictured an ignorant mass of Filipinos, illiterate, poor, living a life of servitude for a few wealthy land owners and foreigners, with no houses or farms or property of their own. Do you know that 70 per cent. of the people above ten years of age can read and write and that this percentage of literacy is almost as high as some of the states of the Union? That it is higher than in any country of South America, higher than the literacy of the Spanish people, and unquestionably above that of any of the new countries recognized in Europe? Do you know that there are a million and a half farms in the Philippines and that 96 per cent. of these farms are owned by Filipinos. In other words, that out of the 11,000,000 Christian Filipinos, 8,000,000 of them at least live on their own farms, with houses of their own, independent of any absentee landlord or foreign master? That 91 per cent. of the urban property consisting of houses and lands is owned by the natives of the Philippines, and only 9 per cent. is in the hands of foreigners? Yet these are facts called by Acting Governor Charles Emmett Yeater to the War Department from the recent census estimates.

Having solemnly promised the Filipinos their independence and having gone before the world as the champion of self-determination, the Filipino people cannot understand how America can consistently refuse to make good these promises.

### HARDLY KNEW HER AT FIRST SIGHT.

Miss Peck's Friends Are Astonished By Her Wonderful Improvement.

"I have gained some eight or ten pounds since I commenced taking Tanlac and feel perfectly splendid in every way," said Miss Annie Peck, living at 1421 Charlotte St., Kansas City, Mo. "I just can't think of enough good things to say about Tanlac," she continued.

"My troubles began about a year ago with nervous indigestion and my stomach finally got in such bad condition that everything I ate disagreed with me. After every meal I would be perfectly miserable from gas forming, and this gas would press up against my lungs and heart until I could hardly get my breath. I also suffered from severe headaches and became so nervous I rarely ever got a good night's sleep. Finally I became so weak and run down that I had to give up trying to do any work at all.

"My brother had gotten fine results from taking Tanlac so I began taking it, too, and right from the first I could just feel my strength coming back. I continued to improve and now am as well and hearty as any one could wish to be and never have a sign of stomach trouble or nervousness any more. I am looking so much better that my friends who haven't seen me since I began taking Tanlac hardly know me at first sight, and I am feeling so perfectly fine I just want to tell everybody about Tanlac."

Tanlac is sold in Hondo by W. H. Windrow; in Castroville by Joseph Courand and Co.; and in Dunlay by Louis A. Haby.

**LARRY SEMON**

The Fourth Estate lost one of the cleverest cartoonists in the country when Larry Semon heard the call of the screen. What the newspaper readers lost the motion picture fans gained, for Larry is now the comedy king. He writes and directs all of his features and never imitates another. In "The Grocery Clerk" he introduces the slimy cat.

Swelling caused by insect bites can be reduced by using Ballard's Snow Liniment. It counteracts the poison and relieves the irritation. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by W. H. Windrow.

**ALICE JOYCE**

Many of the greatest men and women of the stage have had their names associated with one certain play. Alice Joyce seems destined to have the same distinction. The Vitagraph star has had success after success, but, like all other motion picture stars, she has been without a role that stood out separate and distinct from the rest. In "The Vengeance of Durand," adapted from Rex Beach's powerful story adapted by Mr. and Mrs. George Randolph Chester, she has the best role in her notable career.

"I Wouldn't Go Camping Without Rat-Snap," Says Ray White.

"Wife and I spent our vacation camping last summer, smell of cooking brought rats. We went to town, got some RAT-SNAP, broke up cakes, put it outside our tent. We got the rats all right — big fellows." Farmers, storekeepers, housewives, should use RAT-SNAP. Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by W. H. Windrow and Holloway Bros.

All Going Smoothly.

The chaplain came plodding along the road coming back from the front lines several hours after the infantry had gone over the top.

"How are things going up there?" Inquired an artillery lieutenant.

"Fine, fine," said the chaplain. "We're knocking them for a goal."

"Haven't seen many prisoners," said the lieutenant skeptically.

"No, I guess you won't," replied the chaplain, "our machine guns haven't jammed all morning." — The Home Sec.

There is nothing in the whole list of flesh healing remedies that can approach Liquid Borozone in the rapidity with which it heals cuts, wounds, sores, burns or scalds. It is a marvelous discovery. Price, 30c, 60c and \$1.20. Sold by W. H. Windrow.

## TRUTH TRIUMPHS.

Hondo Citizens Testify for the Public Benefit.

A truthful statement of a Hondo citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Hondo citizen tells of Doan's Kidney Pills.

Could you demand more convincing proof of merit?

F. H. Bohlen, proprietor of a repair shop, Hondo, says: "I always use Doan's Kidney Pills when my back bothers me and they never fail to help me. My back ached at times and I had sort of a dull pain in my kidneys. I was often dizzy and black specks appeared before my eyes. My kidneys acted irregularly and the secretions were highly colored and burned in passage. I used Doan's Kidney Pills and they cured the attack. My back is now as strong as iron and my kidneys act regularly. I think the world of Doan's Kidney Pills."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bohlen had. Foster-Milburn Co., Mfrs. Buffalo, N. Y.

**ANTONIO MORENO**

Inspired by the advice of an American actress, Antonio Moreno joined a stock company at Northampton, Mass., after completing his course at Willistown Seminary. Soon he was engaged by Leslie Carter and later appeared with Constance Collier in "Thais." Then he went into silent drama and played with Edith Storey, Irene Castle and Pearl White. Then Albert E. Smith, president of Vitagraph, placed him under a long-term contract and introduced him to the serial. His fiery black eyes, black hair, complexion of "golden pailor" and a talent for expression make him the ideal type for the screen.

## FILIPINOS WANT AMERICA TO GIVE INDEPENDENCE

Maximo M. Kalaw Declares U. S. Cannot Consistently Refuse "Self-Determination."

By MAXIMO M. KALAW, Secretary of the Philippine Mission, Author "The Case for the Philippines," "Self-Government in the Philippines," etc.

Maximo M. Kalaw.

"When they show sufficient capacity," "When they are able to govern themselves," "When they are educated enough." Thus run the answers of many Americans pressed with the question as to when the Filipinos should be granted their independence. Now, "ability," "capacity" and "sufficient education"—What do they mean in black and white?

Senator Shogun may think no people is capable of self-government that does not establish the judicial recall, or that has no Billy Sunday. John Smith of Somerville may think no people is capable of self-government that does not vote his democratic ticket, or go to church on Sundays.

"Capacity for self-government" is as broad and elastic as the world, and if that should be the criterion for the granting of Philippine independence, America might as well say to the Filipinos, "I will give you independence when it pleases me to do so."

Fortunately, the American promise to the Philippines is not based on such obscure and abstract conditions. It is based on a definite, tangible thing. When America, through her Congress, officially told the Filipino people that they would be granted their independence as soon as they could establish a stable government, no abstract or obscure condition was meant. Stable government, according to American usage, means a certain, definite thing. The United States promised the Cubans the same thing, that "when they have established a stable government, then American troops would be withdrawn." As soon as the Cuban people elected a government suited to themselves, capable of maintaining order and fulfilling all international obligations, there was a stable government in Cuba, and American troops were withdrawn.

When Congress passed the Jones law, it simply borrowed the phrase "stable government" from the Cuban history and applied it to the Philippines. The history of Philippine legislation shows that in black and white. With full knowledge of what it meant, the Filipino people accepted the Jones law and immediately began setting up the stable government required by Congress as a pre-requisite to independence. The stable government is now a fact. It is indeed more than that; it is an undisputed fact.

The official representative of the United States in the Philippine Islands, the Governor General, reported to the American Congress and the administration that "the Filipino people have established the stable government demanded by Congress as a pre-requisite for the granting of independence—namely, a government elected by the suffrage of the people, which is capable of maintaining order and of fulfilling its international obligations."

The Philippine question is therefore no longer a question of politics, argument or supposition. To the Philippine mind, at least, it is now a question of whether the United States is ready to discharge its own obligations fully and completely. America went before the world in the recent war as the avowed champion of "self-determination" and Filipinos cannot see how America can consistently refuse to act.

The Filipino people, however, have no grudge or grievance against the American people. Theirs is a message of friendship and gratitude. They seek independence as the natural and logical outcome of America's policy in the islands and of America's solemn promise to them. They come willing to give privileges and concessions not incompatible with their national welfare.

The Filipino people are willing to accept independence under any of the following conditions: Under a League of Nations, guaranteeing its territorial integrity; under the protectorate of the United States for the first few years; under a treaty of neutrality between the United States, England, Japan, France and other powers, or even without any condition whatever—absolute and complete independence. They have no fear of Japan. Philippine independence, in our opinion, is not inimical to Japanese interests. The Japanese are now free to come to the Philippines, but at the present time there are less than 10,000 Japanese in the islands. There are six times as many Japanese in California as there are in the entire Philippine Archipelago.

The Filipinos are willing to take their chance as a nation. Smaller nations beset by graver problems and dangers have taken a more hazardous chance at freedom, and have succeeded.

### Mother in Every House.

Annette, five years old, had never played with the children of the neighborhood and when the nurse permitted her to join in the fun Annette became dictatorial. She remonstrated with her playmates for all manner of imaginary offenses, assuming the role of mother. Finally the nurse gave the young lady a lecture for presuming to be so "bossy."

Just when the lecture was at its height a door opened and a real mother appeared. She proceeded to correct her child for some small offense. This attracted Annette's attention and she turned to the nurse and said: "Isn't it funny? Just about every house you see has a mother in it."

**Protecting the Aged.**  
A Columbus business woman, who is by no means youthful, but who heretofore has regarded herself as anything but decrepit, received a severe jolt recently. She was on her way to work, carefully picking her steps through several inches of slush and snow. Two small boys were standing at a corner, giving loving finishing pats to two large, juicy snowballs. Their chattering ceased as the woman approached, and a significant silence reigned as she passed. Evidently a question was asked, for through the wintry air came an answer, sharp and shrill: "Naw, you don't want to throw no snowballs at an old lady."—Indianapolis News.

### HONDO PEOPLE PREVENT APPENDICITIS

Many Hondo people are using simple glycerine, buckthorn bark, etc., as mixed in Adlerika. This flushes BOTH upper and lower bowel so completely it removes all foul, accumulated poisons from alimentary canal and prevents appendicitis. Adlerika relieves ANY CASE gas on stomach or sour stomach. Often CURES constipation. In one case of chronic stomach trouble ONE bottle produced wonderful results. W. H. Windrow, druggist.

**Wasn't Going Too Far.**  
James was much interested in a mule colt on his uncle's farm. He fed it out of his hand while standing on the opposite side of the fence and one day his uncle saw him patting its nose. "Why?" said his uncle, "Jimmy and you are getting to be good friends. First thing I know you will be trying to ride her." "Oh, no, I won't," said James soberly. "You see, I'm only being friends with her head."

**Loss of Appetite.**  
As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before a second meal is taken. Then if you eat no more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it.

In one town in Texas, the per capita ownership of War Savings Stamps bought in May is about thirty cents, considering there are about 17,000 people in that place, it is quite a Thrift record. That town is Denison.

## RACINE HORSE-SHOE TIRE ASS'N.

JOHN HOENY, PRESIDENT  
F. B. HOENY, VICE-PRESIDENT  
R. O. BELL, SECRETARY AND TREASURER  
CORNER BRYAN AND MASTEN STREET DALLAS, TEXAS

### Why Ordinary Tubes are Misfits in Cord Tires

THE ordinary inner tube was designed to fit a fabric tire. When it is used in a Cord tire it has to stretch 175% more in order to fill the larger air space. (See photograph) This extra stretching draws out or thins the wall of the inner tube so that it is even weaker than when used in a fabric tire. This is wrong.

A tube in a Cord tire should have stronger, not weaker, walls than one in a fabric tire. There is greater friction between tube and casing in a Cord tire, due to the fact that the pressure in Cords is habitually carried lower than in fabric tires—and the softer the tire the greater the internal friction, heat and wear on the tube.

Therefore, ordinary inner tubes in Cord tires are called upon to do much heavier duty than they were designed to do, and at the same time are badly weakened by overstretching while trying to do it. This is neither fair to the tube nor to the Cord casing. The Horse-Shoe Re-Cord Tube was developed a year ago to meet this condition. It is not overstrengthened in Cord

tires, because its walls are 50% heavier than those of ordinary tubes (nine ply instead of six). Furthermore, it survives the added friction because it is made of extra-ordinary rubber—rubber so free from adulteration that it floats on water—rubber so toughened by special treatment that you cannot tear or break a strip the thickness of a wedding ring.

We have named this the Horse-Shoe Re-Cord (for Cords) Tube to emphasize the fact that it was designed especially to stand the harder duty—the extra stretching and the friction in Cord tires. If you have long been a user of Cord tires, you will appreciate the necessity for such a tube as the Re-Cord. The small extra cost is negligible when compared with the extra service assured by this big brown tube.

Today he is known throughout the world as a serial star and director. Upon completing "Smashing Barriers" Albert E. Smith, president of Vitaphone, furnished Mr. Duncan with a serial the production of which will cost \$1,000,000.

"The Silent Avenger" is the title of the new serial. It was written by Albert E. Smith and Cleveland Moffett. In this Mr. Duncan is given ample opportunity to show his skill as a fancy shot pool player, expert on the tennis court and clever slight of hand performer. The thrills provide the star-director with material in which to demonstrate his strength and ability as an all-round athlete. He insists on realism and will assume great risks to stage a thrill as it should be performed. He will not use dummies or substitutes. If the thrill is in the script, Mr. Duncan insists that it can be performed and he does it regardless of the hazard.

His leading lady, Edith Johnson, is equally courageous and follows William Duncan to the limit. They have been associated in several serials, including "The Man of Might" and "A Fight for Millions."

### Texas Baptist Assembly.

The second annual summer encampment of the Texas Baptist Assembly, July 7 to 15, is to be even larger than last year. Many reservations have been made ahead. A tent city, similar to the tent cities on the California Coast last year, is being laid out in streets among the trees in the thirty acre Municipal Park at Teague, Texas. Mr. J. Wedd Davis, President of the Commercial Club, working with the Assembly Grounds Committee under Rev. L. B. Jenkins of Forney, Texas, has announced that the Cafeteria, Athletic Field, Lecture Auditoriums and Tent Accommodations are believed to be now enlarged sufficient to guarantee convenience to all.

One of the feature speakers of the Texas Baptist Assembly at Teague this year is S. M. Brown, D. D. of Kansas City, Missouri. Dr. Brown for years has been Editor in Chief of the "Word and Way", one of the oldest and strongest Baptist papers in the world. His Chautauqua, Lecture and Pulpit ability is recognized internationally.

The first half of each day is divided into study periods. The afternoons are filled with items of recreation and athletics, such as Tennis, Volley ball, Kodaking, etc. All young men and women are asked to bring every Kodak and piece of athletic equipment possible. A strong address and a musical

program each evening closes each day's full program.

Systematic courses in Sunday School, B. Y. P. U. Work and other church activities cover the study periods. In the forenoon the hundreds present are divided for this purpose in classes or small congregations, several running at the same time. Twelve prominent Baptist will conduct these courses. Diplomats from the Sunday School Board of the Southern Baptist Convention are to be awarded to all who successfully pass the examination on the last day of Assembly. Rev. B. O. Harrell of Dallas is Dean of the Assembly in charge of the courses and lectures.

Rev. W. B. Bagby from Brazil, a foreign Missionary and a Texan, is another of the feature speakers. Dr. Bagby, with his grown daughter, who was born in Brazil, is now touring the South before returning to South America. He will arrive in Teague, Tex., in time for the formal opening of the Assembly, July 7th.

Singer Virgil O. Stamps of Timpson, Texas, has charge of organizing the entire musical program. Miss Alma Cameron of Jacksonville, Texas, is the Chief Pianist. "Music again this year is being made a great feature of the program," says the State President, C. C. Hayley, of Dallas.

Rev. H. F. Audick, the State Field Secretary of B. Y. P. U. and Sunday School Work under the Board of the

Texas Baptist Missionary Association has been designated as the Railroad Certificate Agent at the Assembly. He calls for all who do not come in automobiles to purchase their tickets one way to Teague on July 5th, 6th or 7th. He adds that the purchasers be sure to secure the necessary certificate from the Ticket Agent to be O. K'd at Teague by him in order to secure the reduced rate on the return. All who come to the Texas Baptist Assembly, whether by rail or automobile, are to bring their own bedding. It is optional whether those who come bring their own cooking utensils. Anyone, regardless whether Baptists or not, will be welcome to participate with the Baptists in all the benefits the same as last year.

A marriage license was issued June 26th, 1920, to Mr. John Balzen and Mrs. Elizabeth Taber.

O. H. MILLER will take pleasure in showing you his "perfect protection policy". Don't miss asking about it.

MAKE it easier to get around and you make *healthier* and *happier* communities. No one any longer questions the worth of the automobile — or begrudges any *legitimate* expense connected with it.

But millions of car owners are rebelling at the idea that running an automobile has got to mean waste.

II

Every now and then you hear a neighbor complain that "he doesn't seem to have much luck with tires."

Send him to us.

The minute a man begins to *question the service* his tires are giving him, he's ready to listen to reason.

Our business is built on the principle that the only way to get better *tire service* is to get *better tires* to start with.

That's why we have taken the representation for U. S. Tires.

III

U. S. Tires have a reputation for quality.

Built up through years of creating better tires. Such as the *straight side* automobile tire, the *pneumatic* truck tire.

It is not by chance that U. S. Tires are made by the *oldest* and *largest* rubber concern in the world.

We are proud to represent U. S. Tires in this community.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.
